PROFESSIONAL MANUFACTURING

HIGH DROP INDUSTRIAL GRADE UV PRINTER

High end print head

Source manufacturer's quality trust
Strong market recognized
technological strength
Perfect service

ONLY PRODUCING HIGH-END PRINTERS

OUR STRENGTHS

Only producing high-end UV printers

Imported industrial grade print heads

High definition and high-speed printing

Multi functional high drop printing

Negative pressure ink supply system

Ink Droplets Controllable Technology

Big brand control motherboard

**STRIVING FOR EXCELLENCE,
ONLY PRODUCING HIGH-END
UV PRINTERS**

Industrial grade print head

- ✓ Imported from Japan
- ✓ High definition and high-speed printing of images

Professional output software

- ✓ Rich color adjustment
- ✓ High speed RIP, vivid and delicate image quality

Professional after-sales service

- ✓ A professional team to serve you
- ✓ Strong technology and rich experience

CHOOSE US TO SAVE YOU A LOT OF TROUBLE

BUILD EQUIPMENT WITH GOOD MATERIALS

High precision servo motor

Strong power, smooth operation,
and accurate positioning

Imported guide rail screw

Good load-bearing, smooth
sliding, and high accuracy

Print head anti blocking

Automatic mixing, flash spraying, and anti clogging

Self developed control board

Sensitive response, good compatibility,
and reasonable calibration

LED UV lamp

Energy saving and
long lifespan

Forced air cooling

High power continuous
operation

SHIELD

Radiation protection,
dust prevention, and collision
prevention are safer

High strength drag chain

Durable and wear-resistant,
with a long service life

Ink quantity detection

Real time detection of
automatic alarms

Alloy platform

Load bearing strength
without deformation

Optical Fiber

High speed data
transmission

Brand product

HIGH-QUALITY

WHY CHOOSE US

Jiuzhou Manufacturing Equipment Well

SPEAKING WITH FACTS

Being recognized by a large number of users after going online

COMPARED TO OTHER MANUFACTURERS

4062UV PRINTER

Professional manufacturing by the source manufacturer

Strong technical strength and rich experience

Professional team, comprehensive after-sales service

Imported accessory print head, clear, fast, and high-quality output

Strict standardized production process, quality inspection and control

Quick delivery of spot goods, discounted prices, no middlemen to earn price difference

OTHER

MULTI LAYER PRINTING TECHNOLOGY RICH COLOR RELIEF GLOSS

Adopting multi-layer printing technology, white and colored oil are produced simultaneously, and forming in one go improves efficiency, achieving special effects such as relief and increased gloss. The image is highly restored, wear-resistant, durable, waterproof, and anti stretching.

PRODUCT PARAMETERS

Authentic materials, quality manufacturing

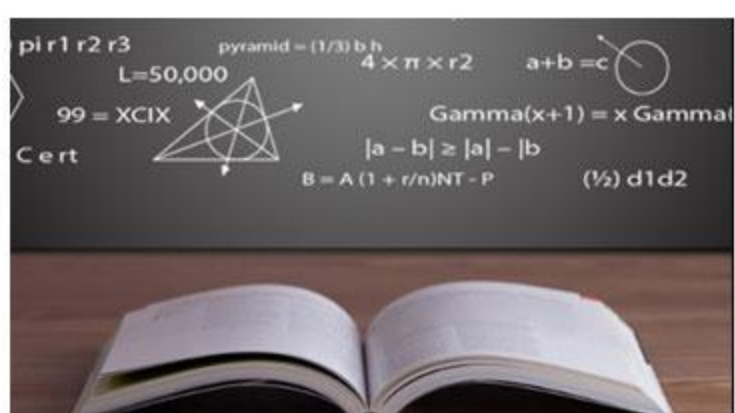

*Attention: There may be errors in manual measurement

TECHNICAL PARAMETER

+

Product model: 4062UV printer	Print head: Industrial grade 1600
Motherboard: independently developed	Printing size: 40 * 62cm
Printing height: 40cm	Output color: CMYKW
Print quality: Resolution 720/1440/2880/5760 The image can be printed	Lifting function: platform lifting
Number of print heads: 2	Inkjet technology: intelligent droplet changing
Anti blocking: automatic mixing/ flash spraying	Print head maintenance: Automatic cleaning
Platform: Alloy suction platform	Printing mode: unidirectional/ bidirectional
Transmission: Silent guide rail+high-precision screw	Ink supply: Negative pressure ink supply
Power system: high-precision servo motor	Ink volume: Ink shortage alarm
Curing system: LED UV lamp curing	Cooling system: air-cooled
Interface method: Gigabit fiber optic	Power: AC220/110.50Hz~60Hz
File format: ttf、 bmp、 pdf、 eps、 ipg	Output software: Ruiyin/Montai
Operating system: Win7/8/10, etc	Special effects: relief/gloss
Working environment: temperature 15-35, humidity 20-30%	Cylinder: supports printing
Weight: approximately 120kg	Size: 1.21*1*0.748m

Because we are engaged in industrial small-scale UV printers, many models involve non-standard and customized products. Before placing an order, please contact customer service to confirm the specifications, models, prices, and whether they can be printed. Only after both parties confirm the validity can we ship the product. If you do not contact us, you can directly place an order or if you cannot contact us after placing an order, or if the merchant and buyer cannot confirm the specifications and prices, you can directly send the item with the same value as the order

24-hour online service

Professional engineers will serve you at any time

free training

One to one professional training package
teaching package meeting

technical support

Online technical service of remote guidance and maintenance is faster and more efficient

ink spare part supply

long-term supply of high quality original ink and spare parts

Enjoy VIP service

1. One year warranty and lifelong after-sales service.
2. Real time online support service for technical experts.
3. One to one professional technology free training. We can send engineers overseas to install the machine.
4. Printer ink, the more you order, the cheaper the price!
5. Welcome to visit our company or factory at any time.
